

Gerni MC 5M PE Series Pressure Washers

Key Features

- Robust long life pumps with ceramic pistons.
- Robust design
- Honda motor
- Wide range of performance levels with high pressure levels
- Lightweight, yet manageable design
- Ergo accessory concept
- **One year commercial warranty**

Gerni

The MC PE range is ideal for use in areas where electrical power is not available, or is not strong enough to allow high pressure cleaning. Self priming and suction ability also mean that water can be drawn from a tank, well, lake or any natural water source - ideal for use in building and construction, rental and agriculture.

Ideal for regular use in hard to reach places, use this machine for high pressure cleaning where there is no power available. Highly manouverable, lightweight cold water pressure cleaner with pneumatic wheels to go anywhere. This machine is popular with tradesmen, transport companies and agriculture. Reliable Honda motors (PE) ensure long working life. The self priming and suction ability means water can be drawn from a tank or river, ideal for use in any rural setting.

Technical Specifications	MC 5M 240/870PE	MC 5M 250/1050PE PLUS	MC 5M 250/1300PE PLUS
Pump pressure (bar/MPa)	240/24	250/25	250/25
Cleaning impact (kg/force)	5	6.4	7.5
Pump (RPM)	3440	1700	1700
Suction Height Dry (m)	2.5	2.5	0
Suction Height Primed (m)	2.5	2.5	1
Water Flow Qmax/Qiec (l/h)	870/800	810/750	1050/1000
